Partner Report

National Control

LV

- centralized, carried out by the Ministry of Smart Administration and Regional Development of the Republic of Latvia

LT

- decentralized, each PP will contract private audit company

Organise procurement, sign contract, get approval from Mol

details here: <https://www.esbendradarbiavimas.lt/kontroles-sistema/>

General rules

- Expenditures included in the Partner Report must be paid out before the end of the respective reporting period and before the end of the project
- Costs paid outside the reporting period can be eligible only in exceptional cases indicated in Programme Manual section 6.3.
- If LP/PP has no costs to report, the Partner Report still has to be formally submitted (so called “zero costs report”) by the set deadline

Content of Partner Report

- **Report identification:** Summary of partner's work in reporting period, Partner problems and deviations (problems and deviations including delays from the work plan presented in the Application Form and the solutions found), Target groups (information on how the target group was involved in the project activities during period).
- **Work plan progress:** description of PP's contribution to the activities, deliverables, outputs carried out in the reporting period.
- **Public procurement:** documentation of the procurement.
- **List of expenditures:** contains information about PP's costs during the reporting period.
- **Report annexes:** supporting documents.

The timeline of reporting and payments

Interreg

Co-funded by
the European Union

Latvia – Lithuania

Total time passed since the end of the reporting period – **up to 5,5 months**

If during verification of the Partner Report by the National Control and Project Report check by the JS, PP or LP is asked to clarify or provide additional information about any part of the report, check of the report will be put on hold.

Final reporting period

- In the case reported costs for infrastructure works in the Project Report for the final reporting period constitute more than 25% of total reported costs, reimbursement of the ERDF co-financing will be processed **in one payment** to the LP within 2 weeks **after the JS approves the final Project Report.**

Payments by LP to PPs

Tips

- secure audit trail when implementing project activities from the very beginning of the project implementation

All requested documents related to costs are listed in the Programme Manual section 7.5.

Report on achieved project results

Annex I Programme output and result indicators

Specific objective 2.1, 2.2,							
Output indicator name	Measurement unit	Definition	Time measurement achieved	Result indicator name	Measurement unit	Definition	Time measurement achieved
Organisations cooperating across borders (RCO87)	Organisations	The indicator counts the organisations cooperating formally in supported projects. The organisations counted in this indicator are the legal entities including project partners.	Upon project finalisation.	Organisations cooperating across borders after project completion (RCR84)	Organisations	The indicator counts the organisations cooperating across borders after the completion of the supported projects. The organisations are legal entities involved in project implementation. The cooperation concept should be interpreted as having a statement that the entities have a formal agreement to continue cooperation, at least one year after the end of the supported project. The cooperation agreements may be established during the implementation of the project or within one year after the project completion. The sustained cooperation does not have to cover the same topic as addressed by the	One year after project completion

Report on achieved project results

Specific objective 2.1, 2.2							
Output indicator name	Measurement unit	Definition	Time measurement achieved	Result indicator name	Measurement unit	Definition	Time measurement achieved
Pilot actions developed jointly and implemented in projects (RCO84)	Pilot actions	The indicator counts the pilot actions developed jointly and implemented by supported projects. The scope of a jointly developed pilot action could be to test procedures, new instruments, tools, experimentation or the transfer of practices. In order to be counted by this indicator: - the pilot action needs not only to be developed, but also implemented within the project and - the implementation of the pilot action should be finalised by the end of the project. Jointly developed pilot action implies the involvement of organizations	Upon project finalisation.	Solutions taken up or upscaled by organisations (RCR104)	Solutions	The indicator counts the number of solutions, other than legal or administrative solutions, that are developed by supported projects and are taken up or upscaled during the implementation of the project or within one year after project completion. The organisation adopting the solutions developed by the project may or may not be a participant in the project. The uptake / up-scaling should be documented by the adopting organisations in, for instance, strategies, action plans etc.	During project implementation / One year after project completion
